TEAM Conservation Education Program

*Teaching Environmental and Agricultural Memories for elementary youth throughout Sonoma County*

You’re invited to participate in this FREE field trip program - Limited space and transportation funds are available!

**Program Overview:**
- Hosted by local, professional agricultural and natural resource conservation community members
- Designed by Stephanie Lennox, enviro educator & naturalist
- Includes two classroom visits (pre and post field trip) and one field trip experience to farm site

**Team Activities:**
- Inspire a connection to and appreciation for agriculture and land conservation in Sonoma County and beyond
- Support CA State Science and Environmental Education Standards
- Include a TEAM Field Notebook designed to reinforce program themes

Students will participate in:

✓ 50 minute pre-site classroom visit
✓ 3 ½ hour field trip to Open Field Farm
✓ 50 minute post-site classroom visit

While onsite, students will rotate through three workstations where hands-on activities will allow students to explore the wildlife habitat on the farm and learn about land stewardship and community connections:

Station 1: How to Raise a Sheep
Station 2: Weaving with Sheep’s Wool
Station 3: Blueberry Farming!

Ag Lesson: Diverse Farms are Healthy Farms

All five senses are utilized throughout each learning station as students explore this stunning farm scape!
